About Me

Knowing I was a hands-on person, I earned my degree in Construction Management from Colorado State University in Fort Collins. I began my career as a millwright while interning with an industrial construction company during college. I enjoyed my time there while diligently learning this industry, but I soon figured out my heart belonged to residential building.

After moving to the Austin area, I sharpened my skills while working with the major homebuilders for a number of years. I spent a lot of time learning how I wanted to do things different — better. My wife, Melissa, and I started Three Oaks Homes in 2008, with the simple vision of delivering a quality home that was built with honesty and integrity. I've been building homes in Wimberley and the surrounding areas ever since.

We have since grown to a family of four — Alex and Zack keep our lives very full and busy! In addition to building custom homes, we're also focused on building our own family traditions and values.
